

Greatland Laser®

safety and rescue products

Brave Any Adventure

Expanding fan of light

Perhaps one of the best night signals invented.

US Navy Aviation Survival Gear Field Test

In a search and rescue situation, being seen can mean the difference between life and death.

“Always be prepared. Always be found. Always come home.”

At Greatland Laser®, our Rescue Laser devices are like no other. We are proud to say, in over two decades of developing and selling these unique signaling devices we have never had a safety issue. Hand-held models, the size of a small flashlight, project laser light through a special lens that can be seen miles away. The patented technology converts a point of laser light into an expanding line of light with much higher visibility than traditional signaling devices. Experience why outdoor enthusiasts and professionals the world over have come to rely on this ultimate personal survival tool.

Greatland Laser
Our handheld rescue-signaling devices are like no other, with an expanding line of light it offers much higher visibility than other traditional signaling devices.

Come and experience why professionals and outdoors enthusiasts the world over have come to rely on this ultimate personal survival tool.

The Ultimate Survival Tool

Hours of Signaling,
Visible up to 20 - 30 Miles
Waterproof, Eco-Friendly, Safe, Effective,
Easy to Use - Made in the USA

rescue laser®
emergency signaling devices

Rescue Laser Light
emergency signaling device

Small enough to carry
in your pocket, EDC or
put on your life jacket!

Product Specifications:

- Visibility: 20 m (32 km) nighttime, optimum conditions
- Daytime signaling up to 1-3 miles (1.6 - 4.8 km)
- Waterproof: to 80 feet (24 m)
- Laser Diode: Red - 10,000 hours meantime life
- Laser Class: 3R < 5mW cw max
- Beam Divergence: Operating temperature: -10° C ~ +50° C
- Operational Life: 40 hours continuous use before changing battery
- Battery: CR123 lithium battery
- Non-flammable, environmentally friendly
- Hole in end cap for attachment to a lanyard, carabiner or key ring
- Rugged anodized aluminum, corrosion resistant
- Limited Lifetime Warranty - see website for details

Model #RL013-01. Shown actual size.

SIGNAL DURATION EQUAL TO 2400 ONE-MINUTE PYROTECHNIC FLARES*

“life-tested tough”

Rescue Laser Flare® Green
emergency signaling device

Brightest Signal!

Product Specifications:

- Visibility: 30 miles (32 km) nighttime, optimum conditions
- Daytime signaling up to 1-5 miles (1.6 - 8 km)
- Waterproof: to 80 feet (24 m)
- Laser Diode: Green - 5,000 hours meantime life
- Laser Class: 3R < 5mW
- Operating temperature: +15° C ~ +45° C
- Operational Life: Approximately 5 hours before changing batteries
- Battery: CR123, 3V Lithium
- Non-flammable, environmentally friendly
- Hole in end cap for attachment to a lanyard, carabiner or key ring
- Compact and lightweight, only 4.7” long and 3.3 oz.
- Rugged anodized aluminum, corrosion resistant
- 180 Day Warranty - see website for details

Model #GLF032-01. Shown actual size.

SIGNAL DURATION EQUAL TO 300 ONE-MINUTE PYROTECHNIC FLARES

Rescue Laser Flare® Magnum
emergency signaling device

Designed to stow away
in your gear or life raft!

Product Specifications:

- Visibility: 20 miles (32 km) nighttime, optimum conditions
- Daytime signaling up to 1-3 miles (1.6-4.8 km)
- Waterproof: to 80 feet (24 m)
- Laser Diode: Red - 10,000 hours meantime life
- Laser Class: 3R < 5mW
- Operating temperature: -10° C ~ +50° C
- Operational Life: Approximately 72 hours before changing batteries
- Battery: Two 1.5-volt AA
- Non-flammable, environmentally friendly
- Hole in end cap for attachment to a lanyard, carabiner or key ring
- Compact and lightweight, only 5.7” long and 4.8 oz.
- Rugged anodized aluminum, corrosion resistant
- Limited Lifetime Warranty - see website for details
